Volume 25

THE REDCLIFF REVIEW THURSDAY, JAN 1st 1936

Number 2

## Questions For Town Meeting Are Suggested

To Bring Before The Anti-  
Ratepayers' Meeting

Discussing the question of approaching municipal elections which takes place in February some very interesting suggestions were made by members of the little gathering the other evening.

One which appealed to all present was that an effort be made this year to get candidates in the field for Mayor and councillors who are vitally interested in improving conditions locally for the good and welfare of the young people and the encouragement of social, instructive, educational and business activities generally.

Attention was brought to the fact that throughout the depression of the past five or six years Redcliff has been one of the most fortunate towns of its size in the west, so far as unemployment and unemployment relief is concerned. Our industries have carried on remarkably well and have used their opportunities to the very best advantage in endeavoring to help out their employees and the public generally.

Despite this satisfactory condition a bomb was thrown into the argument by one who ventured the remark that "notwithstanding this we are the dearest town on earth."

Wow! What a crack up the eye! Undaunted, he carried on "What have we?" he asked, "in the line of sport or amusement for the young people or social intercourse or higher education and with a great big capital N he answered: "Nothing!" Some of the listeners started twisting their thumbs while the speaker went on: "Towns half this size with one tenth of our pay roll are reaching up to the top of the ladder in all lines of sport while here we haven't even got a blue point team."

"Why haven't we?" We have everything and more than other towns have. Where, fault is it?" he said.

His remarks opened up an interesting discussion which resulted in bringing up many questions which, well, might be undertaken here, to make the town a real live going concern and more profitable for our business concerns. One was the establishing of a town park, vacant block just north of the school where parents and children could spend their leisure hours and incidentally get their money in town, instead of having to go out of town for such conveniences.

Approves the above it would be a good idea if some of these matters were discussed at the ratepayers' meeting next month instead of going over the old fashioned program of trying to pick holes in the financial statement which few if any know anything about with only a few minutes study of the figures before the meeting.

The Review is of the opinion that if candidates for municipal office would come out with some well thought out platform for the improvement of the life and development of the town

## Redcliff Young Couple Married Last Saturday

Pateron — Skidmore

A quiet wedding ceremony took place in the Minister's study of Gordon Memorial Church on Saturday evening, Jan 1st 1936, when William Cornelius Pateron, son of Mr. and Mrs. Alexander S. Pateron and Susan Skidmore, daughter of Mr. and Mrs. Franklin Skidmore were united in marriage by Rev. R. Erskine. The bride was attended by her sister Myrtle and the groom by John Skidmore, brother of the bride. The newly married couple are to make their home in Redcliff where they have resided for years.

## To Investigate The Codes Affecting Trade

Mr. G. H. The Views Of All  
Lines Affected

Opportunity will be given to Alberta retailers and wholesalers to express their views in regard to the master code's affecting their trades before any definite steps are taken to put them into operation. It is stated by E. C. Manning, minister of trade and industry.

Some of the men who have already been made by interested business men will be considered. The drafting of final regulations was Mr. Manning, and the men who will propose to the committee that they be made to set up to analyze and tabulate the material already in hand, with each retailer's considerations as they may be made.

## ARGENTINA TO HAVE GRAIN ELEVATOR

The department of Agriculture in the Argentine government has approved the construction of government owned terminal grain elevators with a capacity of 735,000 metric tons to be erected at the cost of \$1,700,000. This will be good news for all wheat exporting countries as in the past Argentina has been forced to dump all its wheat on the market as it was not stored since they had no storing facilities. The result was a glut on the market and the lowering of prices.

## LIFT BAN ON SAVINGS CERTIFICATES

The government order suspending payment of demand savings certificates may be lifted within the next two weeks, as stated by Premier Abernethy today.

"We expect by that time, if negotiations with Ottawa are satisfactory, to be able to handle the certificates," said the premier.

The suggestion order was put in effect by the late U. F. A. government just before vacating office.

as a community enterprise they would get the backing of the ratepayers.

"Since we have no service organizations here some other organization must share the work of these lines. Why not the council?"

## Never Greater Neighborhood Ideas In The Americas

Intual Understanding Between  
Canada and America

The policy of the 'Good Neighbor' amongst nations of North and South America, President Roosevelt declared in his message to the United States Congress is no longer a hope, "but a fact active, present, pertinent and effective."

"At no time," Mr. Roosevelt asserted, "in the four and half centuries of modern civilization in the Americas have we enjoyed—in any year, any decade, or any generation in all time—a greater spirit of mutual understanding, of common helpfulness, and of devotion in the ideals of self government than exists today in the 21 American republics and their neighbor, the Dominion of Canada."

## E. E. TANNER TO BE SPEAKER OF THE HOUSE

Choice of the Social Credit movement for speaker of the legislature which will open on February 6th, is N. E. Tanner, J. A. for Cardston, and a nephew of the latter Party's leader. While nothing official has been announced by the government, Mr. Tanner is rumored to be the choice.

Mr. D. H. Elton has been chosen as Mayor of Lethbridge by the council.

Mrs. R. Thacker entertained a number of young friends at a bridge party last Thursday evening. Honors were won by Irene Buchholz and the consolation went to Mrs. W. H. Morrison. A thoroughly enjoyable evening was spent.

All signs indicate, now that Canada should have a carryover next July 31st of close to normal exports. The new year opened promisingly for Canadian farmers and grain traders with exporters buying freely of the grain's grain.

A. S. Shantz, organizer for the Alberta Radio Dividend Association, says a declaration will be made on the legislature shortly after it opens and will demand payment of the \$25.00 dividend which was promised during the election campaign.

No Canadians are included in His Majesty's New Year's honours list.

## Automobile Tax To Be Extended To 15 Months

Drivers to Pay \$1.00 a Year  
For License

Automobile licenses in Alberta for 1936 will be good for 15 months. It is announced by Premier Abernethy, the government having decided to change the license year to correspond with the fiscal year, which ends March 31st. Legislation to this effect will be introduced at the coming session of legislature.

Debar a year drivers' licenses were also announced.

By another proposed amendment to existing legislation, a fuel tax will be imposed on all grades of fuel oil. It is stated by the premier, who denies recent rumors of the government's intention to cancel refunding to farmers under the gasoline tax. The tax and the refund to farmers will remain as at present, except with the fuel tax to apply to all grades of fuel in future.

## To Ask Social Credit For All Canada

C. C. F. Will Also Ask For Some  
Economic Change

Adoption of Social Credit throughout Canada will be urged upon the Dominion parliament at the coming session, says John Blackmore (S. C. F. C. F. leader), will move a resolution on the new economics.

Mr. Blackmore has already been elected by his fellow Social Credit members as their house leader.

The C. C. F. reduced new members, will also call for common attention to the need for a change in the economic system. J. S. Woodsworth, C. C. F. leader, will bring in a resolution calling for the establishment of a Co-operative Commonwealth in Canada.

Mr. Francis M. B. Pow, eldest son of Rev. R. Erskine Pow, who was promoted to the accountancy in the South Edmonton branch of the Royal Bank in November, is spending this week with his parents. He is now on three weeks holiday.

The worst flood in recent years sweeping through the upper Thames valley left hundreds of persons homeless and caused property damage estimated at several million dollars, not far from the environs of London.

## Crescent Height Lads Play Hockey Here

Win From West-Enders by  
2 Goals to 0

Lads from Crescent Heights hockey club, Medicine Hat, came on to Redcliff last Saturday afternoon and played the West 2nd team here on the Cochrane rink. The visitors won out by 2 goals to 0.

Our west end reporter informs us the visitors were fans who could not stand the cold and only played two periods, a few minutes each when they took cold. He says: "they never gave us time to warm up."

The Bellevue hockey team will play a schedule game with the dominion in Medicine Hat on Saturday night of this week.

Miss Sellhorn and Miss Broadfoot entertained the pupils in their rooms at the school to the picture of the Monarch called "The Crusader" last Monday and Tuesday. It was an exceptionally fine picture, and the pupils thoroughly enjoyed it and the outing.

Fifty-one car loads of cattle were shipped to the United States from southern Alberta last week end. They were shipped to St. Paul and Chicago as experiment with the new reciprocal treaty agreement. In all there were 1,000 head and the shipment was accompanied by several leading ranchmen headed by Jas Mitchell of Medicine Hat.

Miss Doreen Cooke celebrated her 13th birthday on Friday evening when she entertained a number of her girl friends at a smartly arranged party at her home on Third St. Two very nice cardinals were arranged, the cards for both were won by Miss May Martin. New and old games were played and enjoyed by everyone, interspersed with the serving of delicious refreshments by the hostess.

## Churches

JORDON MEMORIAL  
UNITED CHURCH

Pastor: Rev. R. Erskine Pow  
Sunday Jan 1st 1936  
8 a. m. Church School  
11:15 a. m. Morning Worship  
Sacrament of the Lords Supper.  
Subj. Jesus' Guests.  
7:30 p. m. Evening Worship  
Subject: The Church and the Home.

"The fear of the Lord is the chief part of knowledge."

ST. MARY'S CHURCH

Mass will be celebrated on the 3rd Sunday of each month at 8:30 a. m.

ST. AMBROSE CHURCH

Rev. H. S. Hammett, Vicar.  
1st Sunday after Trinity Jan. 12th 1936.  
8:00 a. m. Holy Communion  
11:00 a. m. Matins and Choral Service.  
7:30 Evensong.

## Mr. R. S. Hodge Severs Connection With Glass Plant

Resigns Position as Manager  
of Local Factory

Mr. R. S. Hodge who has been manager of the Dominion Glass plant here for the past 10 years has resigned his position and is severing his connection with the company's factory.

Mr. Hodge has been connected with the plant here for the past eighteen years, having joined the office staff as bookkeeper in 1918.

During his time with the company Mr. Hodge has witnessed many improvements in the equipment of the plant and a steadily increasing business. When he joined the staff the office was conducted by Mr. Lydiatt as manager. Mr. Hodge as bookkeeper, and one stenographer. Today, owing to the increased business and the many additional lines of work, management here, the office staff has increased to eight men, besides the manager, and the six thoroughly increased.

It was a great surprise to his many friends here to learn of Mr. Hodge's retirement. "Bless" he is a familiarly known, the longest continuous resident of Redcliff. He came here as a very young man in 1909 and with the exception of his service in the war and his time spent in the hospitals on his return, has resided here continuously ever since.

Mr. Hodge has not yet definitely decided what he will do in future.

Mr. N. Feldrum of the Head Office, Montreal who was here last summer relieving Mr. Hodge while on his holidays, has been appointed to fill the vacancy caused by the retirement of Mr. Hodge.

During his term of office as manager of the plant here Mr. Hodge has been most popular with the employees as well as with the officials of the company while always looking after the interests of the company he has at the same time endeavored to play the game with the employees under him and the fact that no serious labor troubles have ever occurred in this plant since its opening is testimony in Redcliff speaks well for the ability and fairness of those who had the responsibility of running it.

Word was received in town this week announcing the death of Ernest P. Argue of Ottawa, a former resident of this town. Deceased is survived by his wife and one son. Old times will well remember Mr. and Mrs. Argue who were a popular young couple in the early days.

When the Dominion government's fiscal year ends in March income tax collections will reach the highest total in Canadian history. According to figures released by Revenue Minister Bennett, collections for the nine months, April 1 to Dec. 31, totaled \$78,428,125 and increase of \$18,702,476 over the corresponding period a year ago.

## LOW WINTER FARES

## PACIFIC COAST

VANCOUVER      VICTORIA  
NEW WESTMINSTER

Tickets on "a" to Feb. 15, 1936

GOOD TO RETURN UNTIL APRIL 30, 1936

1st, 2nd, 3rd class to Vancouver and 4th class to Seattle, Portland and California Ports.

For Fares and other particulars apply to Ticket Agent

## CANADIAN PACIFIC

## Publicity For Canada

### Motion Pictures Show World What Dominion Is Doing

A report issued by the department of trade and commerce at Ottawa says Canada is getting valuable publicity abroad through screening of 5,437 copies of motion pictures of Canadian scenery and industrial activity, representing about 5,000,000 feet of film. The films were taken by the Canadian government motion picture bureau.

Of these films 2,831 were in circulation in the United States, 1,299 in Canada, 387 in the United Kingdom, 150 in Australia, New Zealand and Tasmania, 130 in Germany, 199 in South America and 54 in Austria. In smaller volume the films circulated also in Japan, South Africa, Turkey, East India and many other countries.

Films obtained during the year date back to scenes in the principal cities of the Dominion and the national parks, with outdoor life pictures to encourage tourist traffic.

Installation of sound recording equipment and improved laboratory equipment has proved a great aid in connection with the new material on the fruit, fisheries, lumbering and agricultural industries in the form of travelogues. Work on a series of films with the cultivation, harvesting, storage, inspection and transportation of Canadian grain has also been completed, the report states.

Educational programs have been provided for men attached to the unemployment scheme camps in various parts of the Dominion and for the militia training camps at Peterborough, Barrie, Camp Borden and Niagara-on-the-Lake.

One of the outstanding achievements of the motion picture bureau, says the report, was the screening of the official Canadian government film history of the Canadian Corps in the war entitled, "Let Us Forget."

## PARIS PARLEY TO CONSIDER FRANCO-GERMAN FACT

Signing of Franco-Prussian treaty

Far-reaching significance in European affairs is attached to the forthcoming conference in Paris between Premier Pierre Laval and Joachim von Ribbentrop, Chancellor Hitler's personal ambassador, for the purpose of drawing up a Franco-German arms agreement. Such an agreement might counter an open breach between France and Russia, however, because of the treaty negotiated by Maxin Litvinoff, Soviet Foreign Minister, stipulating that neither France nor Russia will undertake a military pact with a third nation. Laval is known to oppose revision of the Franco-Soviet treaty because of growing Leftist sentiment in France. The forthcoming Paris conference is considered comparable in importance, in respect to Franco-German relations, to the treaties signed after the Franco-Prussian war and the Versailles treaty following the World War.

## Where Blame Belongs

### Traffic Officers Should Be Tagged Instead Of Cars

The practice of "tagging" as punishment for offences against the traffic laws is spreading. In Berlin a yellow card is pinned on the wind-shield of cars of convicted drivers. In Huntington, Indiana, offenders have a scarlet label stuck on the windshield and have to have it there for thirty days under penalty of paying fines for the offence. And from several other places come reports of a similar action, all designed to draw the public's attention to the fact that the tagged car has been in trouble caused by breach of the law.

The tag idea is sound enough in theory—giving warning to the public that there is a flaw in its practical application. Why tag the cars? The car is not to blame. It has to do what the driver tells it. It can't, as Old Dobbin sometimes did, set its ears back and refuse to go where some fool driver tried to force it. It can't find its own way home when the driver is too drunk or sleepy to guide it. It can't see obstacles on the road that give ground when as Dobbin used to.

Then again, several members of a family may use the car. Is it fair to find to label him a nuisance to safety whenever he drives down town in the car that, with young Joe at the wheel, had three accidents in the front seat, piled into the rear of the buggy? Or to post the "warning" sign against Aunt Clara because she is driving unspectacularly? The tag idea is sound, but the blame is a right way to apply it. Tag the driver, not the car. Put the blame where it belongs. Might just as well hang an axe for murder, instead of the man who used it, as tag a car that has been so clumsily and carelessly driven by some incompetent or reckless driver.

Better still—put the driver where he can't do any more harm—on the road. Don't let him do any more driving—Owen Sound, Ont., Sun-Times.

## No Profit In Waste

### Payment Made Sometimes For Carelessness In Small Matters

A few years ago the writer was advised when informed by a local dairy manager that bottles registered were costing him \$3.000 yearly. Not all broken, by any means, as milk bottles are used in a multitude of purposes not intended when the bottles are left at the householder's door in the hands of milkmen.

Writing on this subject of small wastes that grow to be large ones the Kingston Whig-Standard has this to say:

From the United States Department of Agriculture comes a reminder of the large cost of carelessness in small matters on the part of many people. Its bureau of dairy industry, which has been watching milk bottles for some time, has given out figures that prove the annual loss in the United States from broken or misused bottles at close to \$1,000,000. That is a waste of little carelessness costs in the United States. The chances are the loss in Canada is proportionate, or nearly so.

The figure is suggestive of our thoughtlessness on this count. It is a small regret for little cost. It's only a broken milk bottle. Never mind, the dairy furnishes them. How many articles in common use, like the milk bottle, are counted as costing nothing?

Who pays for loss in milk bottles? Somebody has to stand it. The bottles, the bureau of dairy industry tells us, cost a little over a nickel apiece. The manufacturer pays their price for the bottles. The farmers and dairies selling the milk charge the consumer for the milk and take the loss. Somebody has to pay for the losses of a going concern. There is no profit in waste.—Nagars, Plain, Ont., Review.

## Mixing Things Up

### City Of Chicago To Have Two Sets Of Clocks

Beginning next March 1, Chicago is to have two sets of clocks. One set of clocks will be on the standard time, as decreed by the city council. The other set will be on central standard time, as decreed by federal law. Most of the people, presumably, can take their choice.

Council time will apply to all municipal offices and the schools. Federal time will continue to apply to the railways, airlines, and to all federal offices and services. Municipal officers will have no option; they must observe the time fixed by the city council. Federal officers, as well as all connected with interstate carriers, will have no option, either; they must observe time fixed by the United States congress.

Thus putting Chicago under two sets of clocks, both of them legal, is a curious thing. It has removed the absurd and impractical confusion of time which the federal law was designed to end.—Chicago Daily News.

## Choose Your Relaxation

### Many Ways People Can Put Themselves To Sleep

But, to go to sleep it is necessary to relax, and here we come to the crux of the matter. Difficult and not very profitable is it to attempt to sleep when the body is tense. We must learn to relax, and anything that enables us to relax will help to send us to sleep. Reading in bed the best thing is a dull book. One man put himself to sleep with the Encyclopedia Britannica; a minister once fell asleep on his knees as he gave over the points of the next sermon.

## Shorter Church Services

An archbishop has taken up arms against the interminable sermon, and has written a circular letter to all his clergy setting them a time limit of 20 minutes for the future. During the harshest season, he declares, five minutes is long enough. He is the most Rev. Virgile Joseph Beugin, Archbishop of Arles, France, the native town of D'Aragone, one of the three unfortunates. Loured, the world-famous shrine to which innumerable pilgrimages are organized every year, is also his diocese.

## Latest Equipment

He was showing a friend round his ultra-modern house. "There are lots of points about it that I like," said the casual friend. "And there are some that I don't understand. Why, for instance, the hand holds in the front door?"

"Oh, that's for frost-bitten hands." It has been estimated that there are approximately 4,000,000 twins in the United States.

## What Canadians Eat

### Interesting Tabulation Is Based On Census Returns

A survey recently completed by the Canadian Daily Newspaper Association, based upon census returns, tells us that the average Canadian family eats in a year. It's an interesting tabulation, and in view of the fact that South Alberta is beginning to process some of the raw materials from our farms to make them available in a refined form to a genuine Canadian family, perhaps the figures will be of more than passing interest.

We are told that the average Canadian family consumes 23.96 pounds of canned milk in a year, 53.34 pounds of cheese, or 47.63 pounds of eggs; of salt for house-keeping uses we use 64 pounds per family per annum. Pork, the basic meat, amounts to 68.28 pounds per year and we consume 100.4 dozen eggs yearly to go along with the bacon. Beef consumption is 48.66 pounds yearly, but Canadians are not big consumers of lamb and mutton, eating only 6.24 pounds per family per year, a very low quota compared to Australia and New Zealand where mutton consumption is nearly 130 pounds per family.

The total food bill of the average Canadian family is approximately \$400 annually. Lethbridge, with 3,000 families, therefore, is a market for about a million and a quarter dollars of foodstuffs annually, with about \$3,000,000 for our trading territory.—Lethbridge Herald.

## Weather Map For Ships

### Will Be Sent By Radio To Vessels At Sea

Radio Corporation of America announces it will begin within a few weeks to shortwave radio transmission, in facsimile, of weather maps to ships at sea. German, American, Norwegian and Spanish ships will be equipped with receivers as they dock next year, the corporation said, and the U.S. weather bureau will begin to supply weather maps for transmission immediately thereafter.

## Palatine As Health Resort

A conference of Jewish doctors, many of them refugees from Germany to discuss the merits of the Holy Land as a health resort will be a feature of the Levant fair which is to be held at Tel Aviv at the end of next April. Discussion on the agricultural development of Palestine and the technical progress made in their countries will also play an important part on this occasion.

Visions are better snake-charmers than men. Three Barman women have charmed their cobra so well that the snakes kiss them.

## The Changing Times

### Have Made It Easy For Women To Travel Alone

There was a time when a woman entering a European hotel and signing the register was subjected to the glances of the staff. It was not to be alone. The opinion seemed to be that she was some siren bent on luring sailors for the destruction of defenses. There is no longer doubt concerning the ease of enjoying life without molestation. The spread of universal independence for the sex has made it possible for any woman who can pay her way to proceed unrestrained along whatever route she may elect to travel. If she transgresses the conventions she suffers the same penalties meted out to the opposite sex. The old theory that the accused in public until proven innocent has been reversed by the more acceptable principle that a woman alone is quite likely to be as worthy a person as the next man who comes along and signs up for a night's board and lodging. There is no longer doubt concerning the woman's familiarity with business matters.

Modern women, married or single, are quite familiar with their rights in the present economic situation, and can meet all emergencies that arise along the way. Many young women of the student and leisure class travel in pairs taking the planned excursions so generously patronized.

## A Handy Man

### Australian Actor Has Made His Own Fate Worth

Every tooth in his head is his own, yet it is artificial. Fidd Taylor, of Melbourne, Australia, actor, tailor, inventor, has turned dentist by force of circumstance and lack of money, and has himself built from plaster of Paris, this rubber and aluminum, a perfect fitting set of teeth. Although he has had no instruction, he makes his own suits. Also he has patented an ingenious device for detecting quinine contamination.

## Alibi Between Twins

When two scoff at an "alibi" story between twins should read this true story of what happened at Saint John, N.B. Walter and Richard Evans are 15-year-old twins, as alike as two peas. Working on the waterfront, Walter had his left hand cramped in an accident. Exactly the same time, a dynamite can exploded a few miles away and injured the left hand of his twin brother Richard.

Once a Western town held a Charley Chaplin contest. Prize went to be given to those who could imitate Charley Chaplin. When Charley came on, he immediately imitated the contest. He came in, 2500.

## Pure Fabrication

### King Tut Curse Is Branded As A Fake

The "King Tut curse" that was supposed to shadow the lives of the men who "violated" Tutankhamen's tomb in the Valley of the Nile was branded a fake by William Edgerton, associate professor of Egyptology at the University of Chicago's Oriental Institute.

Tradition had it that discoverers of the mummy of the Egyptian pharaoh found these words carved on his tomb walls:

"Death shall come on swift wings to him that toucheth the tomb of Pharaoh."

The "inscription" was branded "pure fabrication" by Edgerton in commenting on suggestions that Professor James Breasted, who died in New York, recently, was a victim of the "curse."

"There is not and was not any such inscription in or near the tomb," Edgerton asserted. "Belief in the malediction is 'absurd,'" Edgerton said, but even if there were a curse, it has proved ineffective because the man who actually broke into the ancient burial place is still alive and healthy.

"That man was Mr. Howard Carter, who placed the outermost door of the tomb on Nov. 5, 1922, with his own hands," he said.

Mrs. Newton: "You know, my husband plays the organ." Mrs. Ockburg: "Well, if business doesn't pick up, my husband will have to get on, too."

Yearly exorcism is so much greater in the south that two railroads in the Dakota equal three in Texas.

THE CLUCKOO IN THE MEAT

## A Good Sportsman

### King George, One Of The Six Best Shots In Britain

The king, although now in his 70th year, is still—as he was 30 years ago—one of the six best shots in the land, declares Westworth Day in a book, "King George as a sportsman."

Those who imagine that because he is king his prowess is exaggerated are completely mistaken, says the author. When the king goes shooting, he is invariably accompanied by his private detective, Superintendent Green, but it is not Green's duty to protect His Majesty's person.

He is carried in the hollow of his hand an automatic clicker—each click registering a bird down. At the end of the day the king takes the clicker's total and enters it in his game book. Westworth Day's book minutely discloses the strain imposed on the king by the public expectations of the summer. One of the staff said that when His Majesty returned to Sandringham, his country seat, his looks were worse even than during his illness eight years ago. But, after five days in the Norfolk air, the king was himself again.

## Combating Colic

### Method For Increasing Iodine Content Of Milk And Eggs

Experiments that offer a better method of combating colic were described at Cornell University. In tests lasting eight years the iodine content of eggs and milk had been multiplied many fold by feeding hens and cows on seaweed.

For iodine milk the sea weed is added to the usual grain feed of 20 tons. This result is milk containing 10 to 15 times the usual amount of iodine.

Ballooning spiders travel through the air on silk rain parasites. They have been seen hundreds of miles at sea, floating in midair.

THE CLUCKOO IN THE MEAT

## Puzzle For Medicine Science

### How Honey Acts As Healer Not Yet Discovered

Honey as a dressing for wounds was popular at one time in the Middle Ages. Still earlier, during the Roman Empire, it enjoyed a certain vogue; and Pliny refers in a certain passage to its use as a dressing for a good ointment for certain. It may well be that the fish he refers to was cod liver oil.

How honey is reported to have been again rediscovered as a remarkably effective ointment. In a Red Cross hospital in Hamburg, Germany, it is said that tests have been carried out with honey during the past half year, and that even much soiled wounds are found to grow much cleaner under its influence. But though it cures a wound, it does not seem to have any effect on the skin before, and as cod liver oil promotes rapid healing, it has been combined with honey in an ointment so as to achieve the double purpose of cleaning and healing.

Is in this respect healing it back again in ten days of Pliny, after many a digression. Now does honey act? medical science wonders. Does it cause bacterial fermentation? And which of the many components is most potent? Its sugar, minerals, salts, plant acids, higher alcohols or some ferment? These are some of the queries raised and the Germans, with their methodical instincts, will locate each of the component elements of honey, and will try each in turn on a number of cases of various ulcers, wounds, etc. Pending these experiments, tests with whole honey will be continued, however.

## The Ordinary Man

### Usually Has Sound Instincts

Addressing the Canadian Club at Montreal, Lord Tweedsmuir said that the very clever people are nearly always wrong. "The plain man, on the other hand, is not intellectually," he said, "but he has a curious sound instinct. He is not too logical, just because he is close to real life, about what things are actually going to happen." From these brief remarks, said Lord Tweedsmuir, it is to be drawn the moral: Never distrust the instinct and judgment of the ordinary man.

## Saskatchewan Poetry Wins

Right Saskatchewan poetry man won a total of 20 prizes for his contributions to the Toronto Royal Winter Fair. The Saskatchewan poetry winners secured eight first prizes, ten second prizes and four fourths.

for female suffrage but hasn't  
yet to first base yet. After three  
years preparation a member in-  
troduced the first bill. Then  
Premier Thereseau refused to  
call it. To wear him down  
Madame De Stoven sat in the  
gallery and stared steadily at the  
Premier every afternoon for eight  
weeks. It is true the Premier  
called the bill, tore it into verbal  
shreds and defeated it. But even  
in the words "The travel fad-  
der who travels alone" and belongs  
to no club, league, association  
or group.Hon. J. G. Gardiner, federal  
minister of Agriculture won the  
bye-election in Assiniboia South  
last Monday, defeating Wm.  
Irvine, C. C. F. candidate**Lang Bros. Ltd.****INSURANCE**

**Interesting  
Local Items**Mrs. T. Mignault and baby re-  
turned home from the hospital  
last week end. Both are in  
good health. mMr. N. Mel drum, of Montreal  
who was acting manager at the  
Glass Plant here last summer,  
is in town this week on businessThe Straw Conservation Act  
which prohibits the destruction  
of straw for fodder purposes,  
is now in force in this district.Miss Alice Todd, who spent  
the holiday season with her par-  
ents here, returned to Brooks  
last Friday.Miss Mary Further arrived  
home last Monday from the  
hospital where she underwent a  
serious operation. She is now  
in a fair way to recovery.Flora Stratton entertained a  
number of her friends last  
Thursday to celebrate her 131st  
birthday. A pleasant afternoon  
was spent in games, guessing  
contests etc after which dainty  
lunch was served. Flora was  
presented with a number of  
birthday gifts by her guests.In our last week's issue we  
mentioned that Mrs. H. Tanner  
had returned from the hospital  
where she had been undergoing  
treatment. This was a mistake.  
It was intended to refer to Mrs.  
H. Turner. We are glad to re-  
port that Mrs. Tanner is in her  
usual good health and that Mrs.  
Turner is now progressing  
favorably.**BURNS BANQUET**A Burns Banquet will be held  
in Gordon Memorial Church on  
Friday Jan. 24th. Keep this  
date in mind.**LICENSE NOTICE**All dog and other licenses as  
provided for in the Town Bylaw  
are now due and payable and  
should be attended to at once.  
All neglecting to do so will be  
prosecuted in accordance with  
the bylaws.

J. Kitchen, Constable.

The Alberta legislature is  
likely to open on Feb. 6th.The U. F. A. annual conven-  
tion will be held in Edmonton,  
opening on Jan. 21st.Miss Cecil Mignault, of Tem-  
pica is at present the guest of  
Mr. and Mrs. T. Mignault.Miss Blanch Bastard, of Har-  
ding Man., spent a few days in  
town last week and the guest  
of Mr. and Mrs. W. H. FosterThe Misses Francis and Irene  
Buchholz, who have been spend-  
ing the Christmas holidays with  
their parents here, returned to  
their schools in the Hilda di-  
strict.Mr. Ted Van Wert our popular  
jitney driver, has been confined  
to his home for the past week  
suffering from a severe attack  
of quinsy. He is now much  
improved.Mr. M. Offer, of Montreal,  
Secretary-Treasurer and con-  
troller of the Dominion Glass Co.  
has been in town for the past  
few days on business in con-  
nection with the factory here.Messrs. Knud and Sliven An-  
derson have returned to Olds  
where they are attending the  
Agricultural college. They spent  
the Christmas holidays here  
with their parents, Mr. and  
Mrs. H. Anderson. Knud made  
a splendid showing in the Ex-  
ams. He stood first in his  
class of 34 with an average of  
84 per cent. Both boys are  
taking a keen interest in their  
work.**A. E. WARD, M.D.**
